

## J & J BRYCE TESTIMONIAL

Dear Silvano and Staff

John and I would like to thank you for such an outstanding product you have in the building industry. Because we live in "white ant haven" we were left with little option for building materials. After searching around for "steel kit homes" we were more than happy when we found your company close to home.

From the first time we contact your office till the time of completion, it has been a pleasure. Not only were you, and your staff pleasant, but everything you told us was spot on, and on time and the help and understanding you gave us was beyond what we had expected. The plans were easy to follow and from the time the kit arrived till the floorcoverings were laid was 15 weeks, and in that time we only had nine dry days.

After going through Cyclone Larry in March this year with winds beyond 295 and 315 kms buffeting us, the house stood firm. Our insurance company had 3 engineers check us out and were surprised at the strength of the home. Had we really known how strong it was it would have taken the fear from such an experience away.

Thank you so much again for everything,

Kind regards

John and Jenny Bryce.
