

G & S KERMOND TESTIMONIAL

Dear Silvano

We would like to thank you personally and all Homefab staff for the excellent way in which we were treated.

Over the last 30 years we have built five houses. After very stressful and often legal dealings with their companies, builders, site managers and contractors we decided not to have a builder build for us again.

After looking at many alternative products for the owner builder we selected Homefab initially this was because our first contact with you and your subsequent follow up were very helpful, informative and you demonstrated the Homefab system to our satisfaction. This was done before we signed any contracts with the company.

As we have been building our house we have found the Homefab system easy to follow and all materials supplied to be of an outstanding quality. The deliveries have been very prompt and the in site visits have been of great benefit to us.

In general we have found dealing with Homefab an enjoyable experience, the service from all staff members was exceptional and the cost very reasonable and competitive considering we received a product of higher standard than we have anticipated. We would therefore not hesitate to recommend your company and it's products to anyone.

Yours faithfully

Gary and Sharon Kermond
