

## R ANDERSON TESTIMONIAL

Silvano and the Homefab Team

Building with Home-Fab was a breeze! As an 'owner-builder' I had in my mind to build a house that was tough, maintenance-free, as environmentally friendly as possible, and at the same time attractive and different.

Some of my proposed ideas were 'new' and often I needed guidance. I always received ready advice and help from Homefab's wonderful staff.

My building went perfectly to plan, I made substantial savings by being an 'owner-builder', there was no waste, and I had as much say and input as I wanted.

I found the whole experience of building this house very rewarding and satisfying.

Regards,  
Robyn Anderson
